Key features

- ∅ Two signal ports with full duplex design.
- ∅ Linear power amplification to effectively suppress inter-modulation and spurious emission.
- ∅ Stable and improved signal transmission quality.
- ∅ Built-in 5G Dynamic TDD Sync Detection Module, automatic completion of 5G wireless network cell search and wireless signaling processing.
- ∅ Smart Automatic Level Control (ALC) ensures output level stable and adjustable continuously.
- ∅ Auto Isolation check between service and donor antennas.
- ∅ Smart mode to auto-adjust gain according to the isolation and signal level received by donor site.
