- Build-in speaker and microphone, can record and play.
- It has multifunctional camera mount, can connect to special camera directly.
- The video resolution is 320*240, support SDHC system and SDHC 4GB memory card, with 1G SD card it can record up to 5 hours.
- Diversified recording function:** manual and motion detection recording function.
- Build-in high capacity rechargeable Li-battery, can record 2-3 hours.
- Easy to use, with convenient operation interface and IR remote control operation.

Characteristic picture

1. Power supply, video indicates light
2. AV output
3. AV input
4. Multifunctional camera mount
5. 2" TFT LCD screen
6. Speaker
7. Taking photo key
8. Key lock
9. Menu selecting key
10. Sound adjusting key
11. Screen switch key
12. direction control key
13. Video key
14. power supply key
15. SD card slot
16. charging hole

Specification

File format	MPEG4 (ASF)
Memory	SD Card (support SDHC4~8GB)
Video resolution	Video: 320*240, Photo: 320*240
Video playback	NTSC: 30fps/sec, PAL: 25fps/sec
AV input	4 pins controller or 1 CH AV input
AV output	1CH Video, 1 CH Audio
Display	2.0" TFT LCD
Video system	NTSC/PAL
Cresset	LED*2
Power supply	Build-in Li-battery; 12V 800mAh recharging, DC 5V
Current consumption	300mA (±5%)
Dimension	140mm(L)x75mm(W)x27mm(H)
Weight	190g
Operating temperature	-10°C-55°C
Remote control distance	10 M
